

AC-4201 Ethernet (TCPIP) Convertor

PRODUCT INFORMATION

The **AC-4201** is an RS232 to Ethernet (TCPIP) Convertor for use with the AC-3114 and AC-4101 Master Controllers..

The convertor will connect to either 10 or 100 base T Ethernet networks.

Technical Specification

Mechanical

Housing: Moulded Polycarbonate with fully encapsulated electronics

Size: 60mm x 45mm x 30mm

Weight: 115g nominal

Environmental

Operating Temp: -20°C to +60°C

Humidity: 100% RHNC

Electrical

Voltage: +12vdc

Current: 500mA Max

Indication: 6 LED's
