

AC-1800 RF Reader

PRODUCT INFORMATION

The **AC-1800** is a radio receiver which operates on a frequency of 868 Mhz. The receiver sends the transmitter data in wiegand 26 bit format.

The reader connects to the wiegand reader port of a door controller (e.g. AC-3151 or AC-3300).

Technical Specification

Mechanical

Housing: UV resistant ABS plastic with fully encapsulated electronics

Size: 120mm x 45mm x 25mm

Weight: 100g nominal

Mounting: 2 screws (supplied)

Environmental

Operating Temp: -20°C to +60°C

Humidity: 100% RHNC

Electrical

Voltage: +12vdc

Current: 250mA Max

AC-1800 Data Output: Wiegand 26 bit

Frequency: 868 Mhz

Approvals

CE, ROHS Compliant
